- Job Boards / Hiring Fairs
- Accredited and Licensed
- Endorsed by Industry

IHE School proudly operates industry leading training sites in Western Canada! We pride ourselves on delivering high caliber, real-world machine training so graduates enter the workforce as ambassadors for our training programs!

CELEBRATING 10 YEARS - NEW SERVICES

HEO COMPETENCY/CHALLENGES, TOO!

A MESSAGE FROM HEAD OFFICE OPERATIONS:

Good news is IHE is seeing an increase in operators securing work again for those prepared to go where the work is, and start where the work is offered. There is more to being an HEO than just oil; truly, however **politics and posturing, different points of view, and major projects 'dollars and sense' stalls** are all contributing to the contractions and expansions we're seeing in the job market this year. One thing we do know for certain is the baby boomer generation aligns with a projected need for skilled heavy equipment operators in the immediate to next few years to come.

Christine Bay,

Always, we **love hearing back** from our Alumni and their '**Just Hired**' **Success Stories** as it reminds us why we work so hard every week to ensure that others are enabled and receive an opportunity to change their lives. Many recent operator graduates have been successful at securing employment in construction, mining, roadbuilding, forestry, and a few in oil and gas, too!

Read below to enjoy these and hear the success stories straight from our proud customers!

JUST HIRED! GRAD SUCCESS STORIES — SHARE TIME !!

"I just got hired by CN Rail as an Intermodal Yard Helper/HEO. I start on Monday. I'll be running loaders and shuttle trucks, and eventually cranes to load and unload the Intermodal boxes on rail cars. A good part of getting this job is because I am certified on heavy equipment." - **Tracy** - *IHE Grad, October 2015* -

"Nathaniel graduated from HEO course in June this year. He has been operating a Grader since the second week out of school for a large company out of Red Deer. Super pumped and thanked us for a great experience." - **Cindy** - *IHE Student Advisor, reporting on a Grad check-in call, August 2015*

"I have found a position! I am currently working for Westridge Rock out of Armstrong BC, crushing rock for highways, roads or anywhere rock and sand is needed. Right now I'm on a 3week on 1 week off rotation as a skid steer operator, as well as running an 844k loader when I can! When there's no out of town work I work Monday to Friday in Vernon. I sent out around 30 resumes online with no response, so it was a bit discouraging, but the first resume I handed out in person landed me a job. I absolutely love it, it's everything I wanted in a career and the income has never been better! Very happy I went to IHE, the instructors, teachers and staff are unlike anywhere I have ever gone to school and I was told by friends and family they had never seen me happier." - **Mike** - *IHE Grad, May 2015* -

SAFETY STATEMENT

At IHE, **SAFETY** is the fundamental belief that shapes our company's culture and philosophy. We emphasize it at every stage of the training that we provide. As such, safety has become our primary focus in our interactions with our students, employees, partners and visitors alike, and has become the hallmark of our industry recognized training programs, all resulting in one thing:

Safe and High Caliber Graduates!

JUST HIRED! GRAD SUCCESS STORIES – SHARE TIME X2 !!

“Just spoke to Cory who got married right after school and he says everything went very well. Right after he got hired at a Vancouver Island logging company building roads from blasted rock. The company he's working for has himself and two other hoe operators. He's working on the island where he lives and is super happy and says that he wouldn't have had that opportunity if it wasn't for his training at IHE!”

- Cory - IHE Grad, October 2015 -

“Things are going good, I got a job with a local construction company here in Calgary running Rock Truck! There's lots of opportunity there for me and they have lots of equipment. Thanks to the school I have the confidence running the machines. All the instructors were great!”

- Jason - IHE Grad, October 2015 -
