A MESSAGE FROM BUSINESS DEVELOPMENT

IHE school is the industry leader in heavy equipment operator training. Since 2005, IHE has built a reputation among industry stakeholders as a trusted source for safe and skilled heavy equipment operators. As Director, Business Development, my focus is to lead and implement our growth strategy by creating new partnerships while continuing to provide the safe, high-quality customer service that IHE is known for.

Prior to joining IHE, I spent 12 years focused on sales and investment management, building relationships across western Canada. Over the last 20 years I have gained considerable experience in the office and in the field in the forest industry, energy, and manufacturing.

It is both an exciting and challenging time for industry. As capital commitments continue to grow, major projects are breaking ground all over Western Canada. While this is great news for industry, the increase in commodity prices coupled with an ageing demographic amplifies the need to manage costs when finding and retaining skilled workers.

If 2022 is any indication of things to come, 2023 will continue to pose similar challenges. At IHE, we are committed to helping industry meet their needs by offering targeted recruitment services both online and in-person. Looking beyond COVID-19 to a future of economic recovery and growth, IHE truly is a capacity builder that can help you meet your workforce needs. Please contact me at 403-561-0599 or by email at rbush@iheschool.com

Rich Bush, B.Comm
Director, Business Development

IHE has committed to host ON-DEMAND recruitment fairs for industry organizations. Recruiters can interview 100's of operators on the spot, and afterwards have shortlisted candidates demonstrate their abilities live on our equipment. These events have been wildly successful - one past example is that of Kelowna, BC contractor Okanagan Aggregates who joined us to interview and pre-screen candidates operating abilities on site.

"The process was very efficient compared with sitting in an office & sifting through resumes," said *Russ C., Okanagan Aggregates.* **Are you in immediate need for operators?** Reach out and learn how we can host your own personalized on-demand recruitment fair! Call 1-866-399-3853 or email info@iheschool.com

JUST HIRED! GRAD SUCCESS STORIES — SHARE TIME !!

"I am working with Infracon in Merritt. We are doing the access roads for the pipeline and, fixing the Coquihalla highway. Lots of work, I am continuously turning down other jobs, too." **Chaze C., Alumni**

"Took the Earth Mover course and IHE even helped me to update my resume. I got job offers even before graduation! Now I am living the pipeline dream as an oiler getting seat time every day." **Carleen W., Alumni**

"I went to the WIN site. Got onto the pipeline in Kitimat, built a runway in Eureka Nunavut and drove a CAT 797. Yes, there are places, that want much more experience, but apply everywhere and someone will call. This school is a great place to go to learn different skills." **Justin L., Alumni**

SAFETY STATEMENT

At IHE, **SAFETY** is the fundamental belief that shapes our company's culture and philosophy.

We emphasize it at every stage of the training that we provide. As such, safety has become our primary focus in our interactions with our students, employees, partners and visitors alike, and has become the hallmark of our industry recognized training programs, all resulting in one thing:

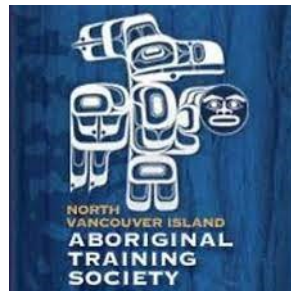

Safe and High Caliber Graduates!

ENDORSED BY INDUSTRY — PARTNER SPOTLIGHT

COMPETENCY TRAINING - ON-SITE JOB ASSESSMENTS - CERTIFYING EXPERIENCE

“Building a working relationship with IHE has proved to be a huge benefit for our company and employees. Through their mobile division, they come to Calgary to sign-off on our HEOs. This allows us to continue production at site while being trained, assessed and evaluated.”

Lawrence Frencheater, Production Supervisor Inland Aggregates ~ June 2022
